# Document Enrichment: Leverage LLMs Auto-extract Data from Policies.

Contract Analysis: Quickly Query and Extract Key Information From Your Policies with AI.

Before AI-Assistant:
- **Manual Review:** Time-consuming manual analysis of policy documents.
- **Susceptible to Mistakes:** Increased likelihood of mistakes due to manual processing.
- **Slow Response:** Delayed underwriting process and decisions.

After AI-Assistant:
- **Automated Extraction:** Quick, accurate AI-driven data extraction.
- **Enhanced Accuracy:** Reduced errors, improved risk assessment.
- **Efficient Workflow:** Faster decision-making, streamlined underwriting.

Kern AI enables secure LLM development on your data.

Trial your document enrichment LLM-application in just two weeks, we need just a few document samples.
